Part A: Pupil premium strategy plan

Statement of intent

In line with our vision we aim for every child to reach their full potential whatever their experiences and abilities. We aim to provide the tools and resources to enable all pupils to flourish and make rapid progress.

Through the use of targeted pupil premium funding we focus on removing the barriers for disadvantaged children through additional adult support, interventions focussing academic and social and emotional barriers, resourcing and development of teacher subject knowledge in order for every child to have equity in their educational experience.

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Communication 14% of our pupil premium pupils have underdeveloped oral language skills and vocabulary. There are some language and vocabulary gaps among this group of pupils compared to their peers. This impacts on social and communication skills as well as their phonics, reading and writing. Some of these children are quiet in the classroom and will not input their ideas into discussions.
2	Learning, Attainment and Progress 57% of the Pupil premium pupils have some SEND needs. This group also has lower attainment compared to their peers; most Pupil Premium pupils (85%) are working towards national expectations. The challenge is to increase this group's attainment and progress across Reading, Writing and Maths. Through high quality teaching and planned interventions and support.
3	Attendance Whole school attendance is above national at 95.91% for 2023-24. Our attendance data for PP pupils is generally good at 96.69% many pupils have individual attendance above 95%. Some of the PP children have previously had lower attendance which is something we will continue to monitor and work with families to maintain/improve attendance. Our assessments and observations indicate that this absenteeism is negatively impacting this particular group's progress. It has also impacted on their wellbeing and mental health.
4	Inclusion and enrichment Some of the pupils have limited access to extra-curricular activities and find it difficult to pay for educational visits, extra-curricular clubs and sports/music tuition. One club per week are offered with free/subsidised places for children in

	receipt of FSM. Visits and residential are subsidised, as are music and sporting opportunities.
5	Mental health, wellbeing and relationships 71% of the children have SEMH needs, some receive support from both outside agencies and specialist TAs in school for nurture, wellbeing and therapeutic interventions. Many of the challenges for this group are in Social and Emotional Health, wellbeing and relationships. With concerns and needs around self-regulation, management of feelings and positive relationships.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
1. Communication 1.1 To develop oral language skills and vocabulary. 1.2 An improved confidence in speaking and listening activities. 1.3 To use high quality texts, modelling and challenging vocabulary, talk and discussion across whole curriculum to develop oracy and vocabulary.	<ul style="list-style-type: none"> • Oracy, language skills and vocabulary are improved. • High quality texts, strategies to improve discussion and vocabulary are used across whole curriculum. • High quality interventions support and develop vocabulary and oracy and improved confidence in speaking and listening. • Drama sessions have a positive impact on pupils confidence.
2. Learning, Attainment and Progress 2.1 To ensure QfT in all classrooms so that children in every class have the best possible education. 2.2 To raise pupil attainment in reading, writing and maths 2.3 To ensure disadvantaged children make expected or more than expected progress in reading, writing and maths 2.4 To give children targeted support in small groups in addition to work covered in class.	<ul style="list-style-type: none"> • QfT and adaptive teaching is seen in all classrooms in lesson observations/learning walks. • Pupils attainment is increased so that more pupils reach the expected in Writing, Reading and Maths and some achieve the greater depth standard. • Pupils progress is increased so that more pupils reach the expected standard and more achieve greater depth in Writing, Reading and Maths. • Well used and developed library areas. • Targeted support planned and taught to small groups. • Century is used regularly to identify and close attainment gaps. • Shine interventions are used to close the attainment gap.
3. Attendance 3.1 To support children that have poor attendance or are regularly late for school and improve their overall attendance. 3.2 To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.	<ul style="list-style-type: none"> • Attendance is improved through working with families and outside agencies. • Pastoral lead supports families. • Families are supported to arrive at school on time (early) through meet and greet, before school activities and subsidised breakfast club sessions.

<p>4. Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2023 to 2024 academic year.

Pupil premium strategy outcomes

We have analysed the performance of our school's disadvantaged pupils during the previous academic year, drawing on national assessment data and our own internal summative and formative assessments. Due to the size of our cohorts across the school, our school data is suppressed.

To help us gauge the performance of our disadvantaged pupils we compared their results to those for disadvantaged and non-disadvantaged pupils at national and local level (though these comparisons are to be considered with caution given ongoing pandemic impacts) and to results achieved by our non-disadvantaged pupils.

We have also drawn on school data and observations to assess wider issues impacting disadvantaged pupils' performance, including attendance, behaviour and wellbeing. The data demonstrated that as a school we face many challenges including progress and achievement, attendance, social emotional and mental health needs, communication needs and inclusion.

Based on all the information above, the performance of our disadvantaged pupils met our expectation, and we are at present on course to achieve the outcomes we set out to achieve by 2024/25, as stated in the Intended Outcomes section above. Our evaluation of the approaches delivered last academic year indicates that we achieved our previous strategy aims:

- Oracy, language skills and vocabulary are improving, and pupil voice exercises are stronger across all curriculum subjects. The precise knowledge within the curriculum progression maps supports the children to know more and remember more. The children have vocabulary focuses as part of all lessons.
- High quality texts have been selected for English lessons and are coherently sequenced. All books in the school libraries have also been audited and selected. Children can now take books home using the school library system and have regular access to these sections.
- Vocabulary identified and used across whole curriculum from reception to year 6 and is sequenced and progressive. Vocabulary teaching forms part of all lessons in school.

- Children with speech and language needs are quickly identified in school and assessed using Verbo. We deliver interventions for Talkboost, inference and programmes advised from speech and language therapists. Children are promptly referred to SALT if there is a need.
- Children enjoy drama teaching in school and talk positivity about the sessions with our drama teacher. Children have a drama lesson each half term and we also offer drama extra-curricular clubs. Children have developed their confidence in school performances and services.
- We have a whole school provision map that staff members use to inform the individual provision maps. There is evidence of quality first teaching strategies within classrooms, but this is not yet consistent. A focus is required on adaptive teaching and a universal offer for all.
- There will be a focus on writing this academic year.
- Results for reading, writing and maths across the year groups is good. If children are not on track in their learning, they are quickly identified, and evidence-based interventions are put in place to support their progress. These include precision teaching, shine interventions, phonics interventions and number box.
- Children achieve well in phonics and is a strength of the school.
- Highly effective implementation of Little Wandle by experienced reading lead.
- Strong phonics screening results.
- Whole class approach to guided reading is now developing.
- Century is used in KS2 to identify and close attainment gaps through self-study at home and school.
- School attendance figures are above national, and attendance has improved.
- The pastoral and attendance lead works closely with families with positive impact on attendance.
- School educational visits have been subsidised.
- There have been a range of extra-curricular opportunities including sports club, drama clubs, forest schools, cooking, dance, singing and art.
- Children can talk about trips that they have been on. Pictures are displayed in the entrance of school as a reminder about their learning. Trips and enhancements are now plotted into the school long term plan, including Fantastic Fridays.

Standardised teacher administered tests or diagnostic assessments

- PIRA/PUMA/GAPs assessments used to assess reading, SPAG and maths from year 1-6.
- Little Wandle assessment for phonics.
- Century used to identify gaps within children's learning.
- Statutory assessment: EYFS baseline, phonics screening, multiplication test, KS2 SATS.
- Optional KS1 SATs
